**ALL SALES FINAL** *Please note* all chicks are pullets unless stated otherwise. If eggs do not hatch, chicks will not be available on published dates. Hatcheries vaccinate chicks for Marek's disease prior to shipping. The hatchery also makes every effort to send female chicks; however, neither the hatchery nor *Bothell Pet & Feed Supply* guarantees each chick to be female and neither does *Bothell Pet & Feed Supply* guarantee survival of chicks once they leave the store.
